"As a mom of two kids under age five, I don't have a lot of time to waste. As a new business owner, now I have even less. And in this economy, nobody can afford to spend too much for things. Kristin's book helps to make sense of the big picture necessities as well as offering tips for simplifying everyday issues. The Turbo-Mom's guide has done all the research for me, put it all together in an easy-to-read package, and now I can figure out which choices work the best for my family. As I said, I don't have a lot of extra time...and I'd rather be dancing with my kids than researching cell phone plans!" - **Gena Orne, mom of 2 and owner of Polkadoodles, Inc., Brewster, NY.**
